## **The Anthony Bourdain Reader** edited by Kimberly Witherspoon

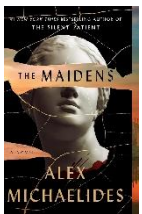

We knew him as a chef, a world-wide traveler, and the author of his breakout memoir, *Kitchen Confidential*. If you're a follower, you'll also know that from the beginning, Bourdain was a writer. One hears his voice, as if he's reading aloud, and it resonates in this collection, from the personal to the public--diary entries, magazine articles, excerpts from various writings, unpublished works. Sharp, amusing, descriptive, and creative, this compilation is a glimpse into the life and mind of a curious, restless, beloved man. **Vicki**

## **A Wind in the Door** by Madeleine L'Engle

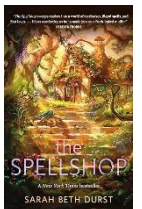

The second book in The Wrinkle in Time Quintet. Charles Wallace is sick. His older sister Meg is told that she can save his life by going inside his body to save his mitochondria. Charles and Meg learn how to “kythe” with each other – to read each other’s senses through mind-to-mind telepathy – to make this happen. Meg must endure various tests to prove she is able to save Charles’s life and the world, but she doubts her ability to pass the. Little does she know, she is stronger than she ever thought possible. **Lisa**

## **The Maidens** by Alex Michaelides

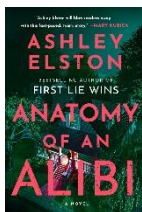

Michaelides’ follow-up to *The Silent Patient* (which I also cannot recommend highly enough) features a dark Cambridge-set murder mystery with all the trappings of an ancient Greek drama. Mariana Andros, a group therapist, rushes to Cambridge to support her niece when one of her classmates is killed. She quickly becomes obsessed with proving the guilt of the school’s Greek tragedy professor, Edward Fosca. But is he truly guilty of the crime, or has Mariana’s own grief and guilt over the recent loss of her husband clouding her judgment? **Kate**

## **The Spellshop** by Sarah Beth Durst

When librarian Kiela’s beloved library is burned in a rebellion, she is forced to flee to her childhood home, along with crates of illegal spell books and a sentient spider plant named Caz. Desperately in need of income, she opens a jam shop, while also trying desperately to hide her illegal magic from her nosy (but very handsome) neighbor. **Abigail**

## **Anatomy of an Alibi** by Ashley Elston

Lots of plot twists and turns, with unexpected faces showing up in unexpected places. Camille and Aubrey each had their own reasons for switching identities for a day to confuse Camille's husband Ben, but neither of them expected Ben to end up dead. Or did one of them commit murder, planning to blame the other? Who's zooming who? Elston's first novel, *The First Lie Wins* (Reese's Book Club Pick), is equally twisty and a great read. **Lois**

## On Wings of Blood by Briar Boleyn

Medra Pendragon, last of the dragon-riders, is a half-fae in a school for vampires--a dangerous position to be in--because Bloodwing Academy isn't just a school, it's a battlefield. Highbloods fight for power, and if you're weak, you're dead. An unwanted (on both sides) betrothal to Blake Drakharrow may just be the worst part. Deadly competitions, games of control, and torment from Blake threaten to break her. The first book in Boleyn's Bloodwing Academy series, this is perfect for fans of dark academia and enemies-to-lovers romantasy! **KJ**
